

+PLUS PATHWAYS COMMUNITY DEVELOPMENT

A unique added value opportunity

Career Options:

Graduates with a +PLUS in Community Development will complete a minimum of 24 hours of development related coursework along with their major and complete a local or international internship at no additional cost or time to graduation

With academic and experiential courses linked to coursework in political science, management and planning, and a specialization in WNY Development or Sustainable Development or Global Development, graduates will be poised for entry-level employment with private sector, governmental and non-profit agencies at the global, national and local levels in areas of administration, research, training, and organizing.

Why +PLUS COMMUNITY DEVELOPMENT?

- Students will gain a background in policy, human resource management, communications and diversity.
- Graduates are prepared to work with a diverse population in the US and globally.

- Graduates possess cultural skills that are highly prized by multi-national companies and organizations.
- BA Graduates have Intermediate level language skills in Chinese, French, Italian or Spanish

Explore your World of Opportunity

- Daemen offers exciting and affordable study-abroad options. You can spend a year, semester, summer or January term in Africa, Asia, the Caribbean, Europe or Latin America.
- Experience working locally or abroad with a professional internship.
- Local service learning opportunities include agencies that serve immigrant or refugee communities as well as agencies working with environmentally sustainable options for growth.
- Spend a semester in our nation's capital with the Washington Internship Institute.
