## Post a Job

Start by *clicking* Post a Job from your home dashboard, or *clicking* on Jobs in the left hand navigation bar and *clicking* Create Job in the top right hand corner.

There are four required pages of the job posting form: **Basics, Details, Preferences, and Schools**. You can use the toolbar at the bottom to navigate between pages on the job post form. While these pages contain both required and optional fields, we highly recommend completing all fields. Some of the fields you should expect to complete include Job Title, Job Type (job vs internship), Employment Type (full-time vs part-time), and Duration. Let's start by going through **Job Basics**.

- **Job Title:** You'll see an option below to add an ATS / job code. If you select this option, you'll be able to add a tracking code to this job that matches the job on your own external site. It's useful as a reference number, but does not actually provide any additional functionality.

Make your job posting work! Provide accurate salary and wage information, a complete list of majors you are recruiting, and a thorough job description to help encourage applicants who are skilled for and excited about the opportunity you have posted.

- **Company Division:** If your company has Divisions set up, you'll see that drop down menu appear right below job title. Make sure to select which division within your company you're hiring for. If you need help adding a division, [check out this article here](#). .
- **Where should students submit their application?** You can elect if you'd like to collect applications in Handshake. If you have an external system (like an ATS) you'd like to direct students to, select Apply through external system and you'll be able to input a url for them to apply through.
- **Add a Job Type**
- **Add an Employment Type & Duration:** When selecting Temporary / Seasonal, you'll need to add both the start and end dates.

- Finally, if you'd like for a student to submit documentation in Handshake, you can select **documents to require** students to submit with their application (**TIP:** If you're having students apply via your Direct ATS and don't want them to apply in Handshake at all, we recommend not selecting any documents here. If checked, these documents will prompt an applicant to first apply with these in Handshake.)

Once you're finished with **Job Details**, choose **Next** along the bottom of your screen to reach **the Job Preferences** tab: **Note:** none of the preferences you add to this page will block students from applying for your job. But we will show you candidates that meet all of your preferences, and those who don't. You can learn more in our article on [Job Preferences](#). **Also note:** all of these preferences are completely optional.

- Add a **Graduation date range** for your job by specifying the earliest and latest graduation date for qualified applicants. Prefer to qualify students by School Year - like Freshman, Sophomore, Junior? You can select the link below to toggle to that option instead.
- Add a **Minimum GPA** value.
- Choose which **Majors** would make a student qualified for your job. This step is discussed in more detail below. Finally, configure who should receive **Applicant Packages**, and with what frequency. We've also added additional details on this below

- Setting up your **Major Preferences**: So by choosing "Computer Science", I am mapping my major preference to each schools' individual term for "Computer Science". Even if it's name "Software Engineering" at a different school, it will still get bucketed into this major correctly. **Note**: these majors are consolidated across every school on Handshake. Once you select a category (by clicking on the checkbox next to it), that category will expand to show the majors within it. **All majors within a category will be selected by default**. But you can remove them by simply clicking on the major you'd like to remove.

- Setting up who should receive **Applicant Packages: Email a summary** - you'll receive one email once your job expires. **Email every time** - you'll get emails each time a new student applies. If you choose this option, you can then specify whether you want every student who applies, or only students who match all of your preferences (Eligibility for international students, grad date / year, GPA, and Major). You'll see your name listed first. You can select (or remove) the following options: You can also add other teammates to receive packages by choosing from the dropdown. If you haven't added them as a contact yet, there will be + add new contact at the bottom of the dropdown.

Once you're finished with **Job Preferences**, choose **Next** along the bottom of your screen. Next we'll go through **School selection**:

- **Add schools** using the dropdown, and you'll see them appear in the table below. **Note:** if your company has **not been approved to post jobs at a school**, you will not see that school as an option. If you have **not been approved at any schools**, you can still create this job and come back later to add schools. If you'd like to post this job to all schools you've been approved at, select "**Add All Schools**" at the top.

Once you've added schools, you'll see a few options to manage them:

- **Remove a school:** The (-) to the left of each school allows you to remove it from the list.
- **Interview on campus?** Selecting this will simply flag this job on the school side, as an employer potentially interested in interviewing. To actually request an on campus interview, please see the relevant help article.
- **Apply start date:** You can choose if you'd like to block students from applying to your job until a specific date.
- **Expiration date:** You can update the date that the job will expire at that school (and students will no longer be able to apply).
  - Adding a **Global apply start date** allows you to update the job start date for every school on your list (it will overwrite previously set start dates).
  - Adding a **Global post expiration** allows you to update the post expiration for every school on your list (it will overwrite previously set expiration dates).

The screenshot shows the 'Job postings' interface. On the left, there is a search dropdown for schools with the following list: Accidental Saints Academy, Alverno College, Cal Poly Demo, California State University San Marcos, CivCom, and Cornell College. On the right, there are two sections for date management. The top section has 'Global apply start date' and 'Global expiration date', each with a 'Set global start' or 'Set global expiration' button and a trash icon. The bottom section has 'Apply start date' (set to 2018-07-12 02:00 pm) and 'Expiration date' (set to yyyy-mm-dd), each with a trash icon.
